3 August 1972

MEMORANDUM

Data on Selected US and Soviet Naval Ships

- 1. Attached are two tables containing data on two Soviet ships and two US ships that have some characteristics that are roughly comparable. The data on Table 1 are from the latest edition of Jane's Fighting Ships. The data on Table 2 are from intelligence sources.
- 2. You will note that there are some differences between <u>Jane's</u> estimates and the intelligence data on the Soviet ships. We also doubt that <u>Jane's</u> data on the US ships is totally accurate, and it is clearly incomplete.
